

Membership Register

Club name:

Here is a simple format for how you can collate your clubs members. This information is needed for your affiliation process (because we are boring and want to make sure your people exist and that they are not the names from an animal cemetery). You could even use it at clubs day and get the plebs to write directly into your laptop. Type of degree, age and sex are optional extras. If you are seeking sponsorship then this could be valuable information on who your members are. There may be other information you may prefer to ask for that applies to your club.

No	Name	Email Address	Student ID	Degree	Age	M/F
